INTRODUCTION OF **FIRM**

Classic Associates was formed in 1988 to provide expertise of civil engineering and construction in Pakistan. **Classic Associates** has successfully executed mega projects of national importance as a challenge and as a commitment towards the infrastructural development of Pakistan.

After 25 years of steady growth, **Classic Associates** has evolved and construction firms. **Classic Associates** is also embarking in the business of construction in Oil and Gas Field.

Our leadership position has been achieved mainly due to four factors i.e., a strong financial background, advance construction technology, focus on customer satisfaction and a good team of highly experienced professionals all striving with a spirit of constancy of purpose.

Classic Associates is recommended by leading consultants and engineers for all kinds of Civil/Mechanical engineering projects of any magnitude, including multi-stories commercial, residential and amenity building, housing project and development schemes and co-operative housing societies, water supply drainage & sewerage industrial projects, tunnel projects, access road projects, oil field development and airfield development projects. These projects speak volumes about commitment of the company to achieve excellence.
